

## The one with beauty & brains

To succeed in this fast world, merely keeping pace isn't enough.

To march ahead, you need to Gallop and that too in style.

But firstly let's understand the mandatory requisite to gallop. You need to be comfortable, relaxed and absolutely composed to take the position and gallop.

Your chair actually decides how much stress you can take or how much can you stretch. Godrej Interio brings you a miraculous chair that's not only stylish & cozy but ergonomically designed for optimum comfort. And when we say this, we mean it.

## Convenience at your beck n call

Talk about functionality with detailing and Gallop is designed just for that. Its unique features provide convenience at your beck n call and guard your body from common urbane ailments like backache, fatigue etc.

- 1 The standard chair has a height adjustable back (range 70mm) - which allows the chair to expand / contract in height to provide the right ergonomic back and lumbar support to a wider range of people.
- 2 The seat has an IN-BUILT seat depth adjustment (range 60mm) to make the seat depth bigger / smaller and provide the right fit to a wider range of people.
- 3 The 1: 2 synchro mechanism has a 'Easy Reach' TILT TENSION KNOB to adjust the tilting force as per user's comfort requirement.
- 4 The GALLOP chair is built on a unique BIO-SYNCHRO mechanism platform... wherein, when the back tilts, the seat GLIDES in 'tandem' with the back to ensure full contact and support of the user's lumbar area at all positions.
- 5 The mechanism also has a user friendly 5 position TILT LIMITER - to support users alternating between various tasks being performed:
  - a: Upright position: Computer / Desk working
  - b: 2 and 3: Business interactions / Meetings / Telephone discussions / Casual conversations
  - c: 4 and 5: Thinking / Reading
- 6 The fully loaded version comes with a 4 way ADJUSTABLE armrest - height width, forward-backward and swivel to provide support to forearms & shoulder for a variety of tasks. The height adjustment is spring loaded for ease of operation and adjustment. Other option available has only height adjustable arms.
